OBJECTIVE

A highly motivated , detail-oriented and curious Computer Science student with a passion for solving real-world problems through technology. Seeking internship opportunities to apply my skills in software testing, web development, database design within a collaborative and learning-driven environment.

PROJECT WORK

Bank Management System

- Built secure core banking app with account and transaction modules.
- Used relational DB with primary and foreign keys.
- Applied basic encryption for data protection.

Event Web Portfolio

- Created responsive event website using HTML, CSS, JavaScript.
- Applied modular design with HTML comments for maintainability.
- Used DOM manipulation for dynamic updates like filters and pop-up.

INTERNSHIP

Marcello Tech | Data science | Sep.2024 - Oct.2024 |

Duration: 1 Week | Mode: Online

- Gained hands-on experience with data preprocessing using Python and pandas.
- Built basic visualizations with Matplotlib and Seaborn for dataset insights.
- Applied simple machine learning models using scikit-learn for analysis.

InternPe | UI/UX designer | Oct.2024 - Nov.2024 |

Duration: 1 Month | Mode: Online

- Developed wireframes for a e-commerce website with responsive layouts and accessibility features.
- Conducted usability testing to gather user feedback and identify issues.
- Iteratively applied user-centered design principles to enhance the user experience.

Software Testing| Chennai|Jun.2025 - July.2025|

Duration: 1 Month | Mode: Offline

- Learned software testing fundamentals, including Smoke Testing, Functional Testing, and Regression Testing.
- Created detailed test cases and scenarios specifically for healthcare applications.
- Practiced using Requirements Traceability Matrix (RTM) and simulated bug tracking and defect reporting.

DECLARATION

I do hereby declare that the above details in the resume are true to the best of my knowledge.
